

## Colors & Finishes Guide

ILVE was founded in 1952 as a brand that is firmly devoted to exceptional, handcrafted quality in residential cooking appliances including ranges, cooktops, ventilation and accessories.

More than just a painted surface, Ilve's 9 classic colors are made in Italy using a baked enamel system, resulting in a high gloss, super resilient finish. From Antique White to Emerald Green, use these color swatches to choose the perfect shade to complete your kitchen.

Once you've chosen your desired color, use our custom finish swatches to personalize your range's handles and knobs. Compare and contrast our colors and finishes to create your tailor made, truly unique ILVE range.

## Matte Graphite

This color sample is a printed representation of an enamel finish. As with any enamel finish, colors and characteristics will vary slightly making it impossible to recreate exact ILVE enamel finishes.
